

PETCHOA 'BEAUTICAL' SERIES

New for 2019 season for pot, patio, containers and baskets!

Petchoa 'BeautiCal' - a hybrid that brings the best from Petunia and Calibrachoa. Petchoa BeautiCal has an excellent mounding habit and large striking flowers, making this series an ideal choice for the pot and patio sector. BeautiCal's large, weather resistant plants recover from rain much faster than standard Petunias, and the exceptional colours in the range will be an absolute **WOW** on your retail benches.

"A combination of the best features of Petunia and Calibrachoa, BeautiCal is set to be the *New Beauty Standard* for patios, terraces, balconies and baskets".

Petchoa series combines:

- Sakata bred Inter-generic hybrid with compact-medium mounding habit.
- Very good weather and rain tolerance
- Nice showy flowers till end of the Summer
- Mildew resistance: long lasting plant till end of the Summer
- Suitable for cultivation in 10.5-13cm pots, mix/mono containers & baskets
- Highly suitable for patio, terrace, balcony and smaller garden beds
